Titanate Coupling Agent NDZ-311w

Chemical Name: Chelate solution of Bis(P,P-bis-ethylhexyl diphosphato)ethanediolato titanate

CAS No.: N.A.

Product appearance: Colorless to red clear viscous liquid

Application:

It can be used in water base coating to increase solid content, improve adhesion power, improve surface gloss, and increase chemical resistance. It can improve tearing strength, tensile strength and aging resistance.

Packing: Packed with 5L、20L、210L plastic/steel drum or 1000L IBC container, also can be packed according to customer's requirement.

Storage: Seal and store it in a cool, dry and ventilated place, keep moisture-proof and waterproof, far away from kindling material and heat source.
