## Titanate SG-Ti 506

**Chemical Name:** Diisobutoxy-bis ethylacetoacetato titanate

**CAS No.:** 83877-91-2

**Product appearance:** Light reddish clear liquid, will precipitate partly or in all in the form of crystals when stored in low temperature.

**Application:**

With the evaporation of solvent during application of SG-Ti 506, crosslinking reaction could occur with such groups as -OH、-COOH、-NH<sub>2</sub> OCONH<sub>2</sub> and -SH. So that bridge is formed, which cause molecular weight to increase, and that will improve heat resistance, chemical resistance, water resistance, and dry properties.

**Packing:** Packed with 5L、20L、210L plastic/steel drum or 1000L IBC container, also can be packed according to customer's requirement.

**Storage:** Seal and store it in a cool, dry and ventilated place, keep moisture-proof and waterproof, far away from kindling material and heat source.
